

## ELS Micro-Modular Data Centers

ELS has pioneered the development of self-contained, high-density, cost-effective and energy efficient Micro-Modular Data Centers. Built at the rack level with onboard cooling, security and fire suppression, these data centers fully replicate the

standard 19" racks that can accommodate the world's most high-tech equipment including powerful blade or racked servers, networking storage (NAS), storage area networks (SANS), wi-fi, wi-max, 4G wireless and satellite (SATCOM).

Now you can choose from the equipment that best meets your needs and have a complete turnkey IT solution in less time and at a fraction of the cost.

### ELS Large Micro-Modular Data Centers

functions of a traditional data center without the costly infrastructure, raised floors, big iron and massive air conditioning units.

The enclosures are vendor neutral with industry

## GBS offers a new Technology Service for Business

When your IT Dept is in the market to purchase computer, networking or retail equipment for your business or school, many hours often go into the search for the correct product at the best pricing online. The final price is often a direct result of the amount of time spent using online searches and price-comparison engines. Everyone wants the best deal but not everyone has the requisite amount of time needed to search through 1000's of online sites to find the correct product, the best price and a reliable

company warranty. Consumers today are aware of the price variation on IT equipment and worry that their purchases could be found to be less expensive at an undiscovered online retailer. GBS can help, with our new service for clients that includes maintaining a database of your current and future equipment, which is handled by your GBS Sales Rep, Fill out the attached form and return to us and let us save you time and money. You can spend time on more important tasks and won't have

to worry you'll miss out on the best price anymore.

### Try It Today - No Obligation

You can opt out at any time and your info is secure with GBS. Just fill out the spreadsheet to the right and return it to us. If a product matching your equipment goes on sale. *Some of our clients that use our services include: Prosser School of Technology, Menards, County of Grundy, the VA Vocational Office, Premier Salons...*

We can save you 20-80% on

- **Data Storage**-Hard Drives, SAN/NAS, Storage Systems
- **Networking**- Switches, Cameras, Wireless Access Points
- **Point of Sale**- POS Terminals, Barcode Scanners, Receipt Printers
