

Since 1986

GBS is a service disabled, veteran owned business who has been buying and selling excess new, new but discontinued systems, upgrade kits and parts; and also providing repair services since 1986. We acquire equipment from all major manufacturers, other resellers, distributors, leasing companies and end users. All equipment will have manufacturer's warranty or be guaranteed to be eligible for vendors' maintenance. We also offer warranty extension, advance exchange and flat rate depot repair services for systems, POS hardware, banking, bar-coding, terminals and printers.
