

## Recapture Money Already Spent

*Our company philosophy has always been to re-use, repair and recycle computer equipment. When our clients' equipment is no longer usable, we work with licensed electronics recycling contractors across the nation to dispose of their systems, monitors and peripherals responsibly. Most of this equipment contains components that can be broken down by type and sold to be recycled into new products.*

*GBS buys used, excess equipment for cash - allowing businesses to recapture some of the money they spent on that equipment. The money they recoup can be used to buy new systems, parts and upgrades while making it possible for another company to buy equipment they couldn't afford at list price.*

*GBS isn't going green.  
**We've always been green.**  
We have helped businesses re-use, re-distribute and re-cycle their used electronics since 1986.*

## Recycling Services

GBS works with licensed electronics recycling contractors across the nation to dispose of their systems, monitors and peripherals responsibly. Most of this equipment contains components that can be broken down by type and sold to be recycled into new products.

Non-working hardware is recycled for scrap by licensed contractors.

equipment is as described or your money back, and we have a 20-year customer satisfaction record to prove it.

## GBS buys and sells

excess new and used data storage, network hardware and point of sale equipment. In addition to the traditional client relationships we have established over the years, we now offer discount computer and retail hardware through our online store, with our companies 30-day warranty

(minimum). We guarantee our

## Depot Repair Services

GBS can help you control your IT costs by extending the life of your equipment. If you use the equipment manufacturer for repair, it may be costly and time consuming. GBS provides depot repair services that are affordable and quick.

## Short-term rental and/or Leasing programs

GBS offers short-term rental and leasing programs that can get your company through a difficult transition period. We can provide the equipment that will allow your company to maintain a high standard of uninterrupted business continuity.

## Equipment buybacks

In addition to offering you the opportunity to purchase high quality equipment, GBS offers an equipment buy-back program. Under this program, we purchase your used, surplus and obsolete equipment, either for Cash or Trade In Credit on your new purchases.

Save time and money - let GBS source your new hardware while removing your old hardware.
