

NCR RealPOS™ Performance Touch Display

Need a high performance touch display
that is easy to use, flexible and durable?

YES

The NCR RealPOS Performance Touch Display maximizes store productivity and ensures the highest level of customer satisfaction

Designed for a variety of retail environments with its robust capacitive touch technology, the NCR RealPOS Performance Touch Display provides superior usability and proven durability.

- **Durable to last in a today's retail environment**

The NCR RealPOS Performance Touch Display is built for the stresses of today's retail environment. To maximize your technology investment, the touch display has increased resistance to common retail contaminants, such as dirt, grease, water, coffee, vinegar, cleaning detergents and gasoline. In addition, the dual-bulb backlight technology also provides for longer life.

- **Flexible open systems protects your investment**

Seamless integration is yours, whether you use Microsoft® Windows® or Linux. NCR's industry standard OPOS and JavaPOS driver support, teamed with industry standards for connectivity, provide seamless integration.

- **Tough to sustain the stress and long hours of the real world**

Comprehensive environmental and compatibility testing with strict manufacturing standards provides you with confidence that your touch display will keep working despite unforeseen mishaps at the checkout.
