

# NCR RealPOS™ Receipt Label Printer

Want a printer that can help track orders and increase accuracy while providing an environmentally conscious solution?

YES

## The NCR RealPOS Receipt Label Printer is a flexible solution that increases efficiency while reducing waste in any food and beverage service environment

Advance the way you deliver customer satisfaction by clearly identifying and labeling orders in one step through the ability to print and stick your receipts directly on any order, whether it's a bag, cup or even an individual food item. In addition, you'll reduce not only food waste, but also typical waste associated with traditional labeling methods, since there is no liner or sticker matrix—simply print and stick.

- **A way to offer your customers more options without complicating the order process**

The NCR RealPOS Receipt Label Printer allows you to maintain a high level of customer satisfaction even when order complexity increases. Enhance order accuracy and reduce order fulfillment time by tracking special orders, identifying carry-out and drive-through orders, or labeling custom beverages—increasing customer satisfaction and revenue.

- **Created for the food service industry**

Designed and engineered specifically to be used in the food industry, the NCR RealPOS Receipt Label Printer paper was created only with materials that are approved for food contact. It was also developed to handle the heat, grease and condensation typically found in food service environments. Even in harsh conditions, the sticky receipt maintains its integrity and has the ability to be repositioned over and over again.

- **A flexible and robust label printing solution**

The NCR RealPOS Receipt Label Printer functions as both a receipt label printer and a traditional single-sided thermal receipt printer, giving you the flexibility to relocate it anywhere in the store if necessary. Printer life is extended as well, since the unique zoned adhesive technology of Receipt on Label paper ensures that the printer never has to cut through the sticky adhesive. And integration is a snap—no new print commands are required, and its footprint is similar to the current NCR RealPOS single-station printers.

## Key Features

- Similar footprint and drivers as current NCR RealPOS single-station printers
- Supports both 58mm and 80mm roll sizes
- Autosensing RS232/USB connectivity
- Drop-in paper loading
- Single button programming and diagnostic tallies
- Paper detection sensor automatically detects Receipt on Label or single-sided paper and optimizes printer performance
- Print completion tone

## Why NCR?

With over 125 years of retail experience, NCR is a leading global provider of assisted- and self-service solutions. We help our clients around the world improve their customer interactions, implement change quickly and proactively, and transform their businesses to become leaders and change agents. We can help you, too.

## Technical Specifications

- Thermal, fixed head, 203dpi
- Rotary knife
- Single cash drawer port supporting 1–2 drawers
- Autosensing RS232 and USB interface
- Thermal printing in 44 or 56 columns
- NCR 7194 Emulation
- “Paper low” and “paper out” sensors
- Customizable logos and character set in RAM Charcoal gray

### COLUMNS PER LINE AND CHARACTER PITCH (80MM PAPER)

- 44 @ 15.6 CPI (standard)
- 56 @ 20.3 CPI (compressed)
- 22 @ 7.8 CPI (standard double byte)
- 28 @ 10.2 CPI (compressed Kanji double byte)

### COLUMNS PER LINE AND CHARACTER PITCH (58MM PAPER)

- 32 @ 15.6 CPI (standard)
- 42 @ 20.3 CPI (compressed)
- 17 @ 8.5 CPI (standard double byte)
- 21 @ 10.2 CPI (compressed Kanji double byte)

### PRINT MODES

- Standard, compressed, double high, double width, upside down, rotated, underline, scalable, bold, superscript, italic, subscript, reverse print

### CHARACTER SETS

- 437 US English
- 850 Multilingual (Latin I)
- 852 Slavic
- 858 Multilingual with Euro Symbol
- 860 Portuguese
- 862 Hebrew
- 863 French Canadian
- 864 Arabic
- 865 Nordic
- 866 Cyrillic
- 874 Thailand
- 1252 Windows Latin I
- Katakana
- 932 Japanese Kanji

### OPTIONAL CHARACTER SETS

- 936 Simple Chinese
- 949 Korean
- 950 Traditional Chinese)

### BAR CODE GENERATION

- UPC-A, UPC-E, JAN 13 (EAN), JAN 8 (EAN), Code 39, Code
- 128, Interleaved 2 of 5, Codabar, Code 93, PDF 417

### POWER REQUIREMENTS

- 24V power from NCR RealPOS terminals
- Optional external 75-watt power supply

### DIMENSIONS

- 5.7 W x 8.7 L x 5.5 H inches; 145 W x 220 L x 140 H mm
- 4.85lbs

### ENVIRONMENTAL CONDITIONS

- Operating temperature: 5°C to 50°C (40°F to 122°F)
- Operating humidity: 5%–90%

### PRINT DRIVERS

- OPOS, TAPS, JavaPOS for Windows and Linux
